

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
18  It's International Museum Day. Founded in 1814, the Indian Museum in Kolkata is India's oldest museum.	19  It takes approximately 12 hours for food to be fully digested in the human body.	20  Wombats produce cube-shaped faeces, which helps keep their poop from rolling away.	21  14 frog species in the world have no tongue. One of them is the African dwarf frog.	22  The mantis shrimp's punch is so strong that it can break aquarium glass!	23  Ants don't have lungs. Instead they absorb oxygen through tiny holes in their body.	24  On this day in 1965, Captain MS Kohli led the first successful Indian expedition to Mount Everest.
25  The IPL Finals are scheduled to be held today. Which team are you cheering for?	26  May is the best time to enjoy Indian mangoes like Alphonso, Dussehri, Langra and Kesar.	27  Goats from different regions develop unique 'accents' in their bleating, just like human languages.	28  A snail can sleep for up to three years to survive extreme conditions.	29  On this day in 1953, Sir Edmund Hillary and Tenzing Norgay became the first people to reach the summit of Mount Everest.	30  The immortal jellyfish can reverse aging, making it live forever.	31  While protecting and warming their eggs, male emperor penguins don't eat for 65 to 75 days.
